

Ethical Sourcing Policy

The ELKAY Ethical Sourcing Policy (EESP) aim is to ensure that our suppliers meet appropriate minimum ethical and social standards.

The EESP is designed to ensure that the company buys its products from suppliers that can demonstrate awareness and adherence to relevant and appropriate social and ethical standards, the company will also seek to ensure that its suppliers are aware of the impact of their operations on the environment and will encourage its suppliers to monitor any such impacts with a view to adopting minimisation measures.

The company will take reasonable and practical steps to monitor supplier activity to ensure that standards, which could impact adversely upon the local or global environment, are not compromised.

The EESP is based on the internationally recognised Social Accountability 8000 (SA 8000) criteria. The company EESP covers the following areas of accountability:

- Child labour: No workers under the age of 15; minimum lowered to 14 for countries operating under the ILO Convention
